

List of Programs for DevOps Lab Internal and External

MVSR Engineering College (A) Department of Information Technology B.E VI Semester Main Practical Exams – June 2026 DevOps Lab (U21PC683IT) Program:1	
1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Java, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A) Department of Information Technology B.E VI Semester Main Practical Exams – June 2026 DevOps Lab (U21PC683IT) Program:2	
1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in C, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A) Department of Information Technology B.E VI Semester Main Practical Exams – June 2026 DevOps Lab (U21PC683IT) Program: 3	
1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in HTML, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 4

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in PYTHON, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 5

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Node, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 6

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program using FLASK in python, Build and run the Docker image and push the code to GITHUB and Docker Image to DockerHub.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 7

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in C, and push the code to GITHUB. Create a Jenkins Job for executing the program.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 8

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Python(ADD, SUB, MUL, DIV of 2 numbers) , and push the code to GITHUB. Create a Jenkins Job for executing the program.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 9

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Java(Reverse of a number) , and push the code to GITHUB. Create a Jenkins Job for executing the program.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:10

1.	List out any five Git commands and give its usage.
2.	List out any five Docker commands and give its usage.
3.	List out any five Kubernetes commands and give its usage.
4.	Give Docker commands to Run an Hello-World image in Docker.
5.	Create a Jenkins Job for executing shell commands and Using Build Trigger-build the job periodically.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 11

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Create a simple HTML page - Registration form and push the code to GITHUB. Create a Jenkins Job for publishing the HTML Page.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:12

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Create a Jenkins pipeline Job using pipeline script using Jenkinsfile (SCM - GIT)

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 13

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Java and Python for Pattern display and Create a Jenkins Job for executing the programs. (Use file Parameterization)

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 14

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Give Docker commands to Run an Ubuntu image in Docker container named “MyContainer” and execute some shell commands inside it.
5.	Create a Jenkins pipeline Job using pipeline script with 5 stages.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 15

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Give Docker commands to run a Python image and execute some commands.
5.	Kubernetes - Create an nginx deployment and run some kubectl commands

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 16

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Give Docker commands to run a node image and execute some commands.
5	Kubernetes - Create an python deployment and run some kubectl commands

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 17

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Give Docker commands to run a nginx image and execute some commands.
5	Kubernetes - Create an Mongo deployment and run some kubectl commands

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:18

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Develop a simple containerized HTML application (Registration form) using Docker and push the image to dockerhub and code to GIT

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:19

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Using Docker compose - Create two instances of busybox images in two containers named bbConA and bbConB and ping bbConB from bbConA.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 20

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Kubernetes - Create an nginx deployment using manifest (YAML) files.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 21

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Kubernetes - Create an node deployment and run some kubectl commands
5	Write a JavaScript program to open Google / College website in the browser using Selenium

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program: 22

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a JavaScript program for login validation application and test it using Selenium.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:23

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a JavaScript program for checking exam results on college website (https://matrusri.skolo.in/) and test it using Selenium.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)
Program:24

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Develop a Web-Application for Calculator, Write test cases for any operation and test it using Selenium.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)

Program:25

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Create a Jenkins Job for executing Java program in GIT – Using Trigger, Build the Job remotely.

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)

Program:26

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Create a Jenkins Job for executing Python program (Calculator) in GIT – Using Trigger, execute the job through SCM polling. (automatically execute when code is changed in GitHub).

MVSR Engineering College (A)
Department of Information Technology
B.E VI Semester Main Practical Exams – June 2026
DevOps Lab (U21PC683IT)

Program:27

1	List out any five Git commands and give its usage.
2	List out any five Docker commands and give its usage.
3	List out any five Kubernetes commands and give its usage.
4	Write a simple program in Java and Python for Calculator and Create a Jenkins Job for executing the programs. (Use file and variable Parameterization)
